

Job Description

Position Title: Service Technician

Reports to: Service Manager

Job Status: Non-Exempt

Position summary:

Perform Quality Walk inspection and submit report to Service Department. Perform punch list repairs after cabinetry installation as well as repairs covered under manufacturer's warranty.

Essential Functions:

- Inspect work after initial installation, create a punch list report to be completed by Service Department, submit report electronically.
- Perform minor cabinetry/trim work repairs and finishing using hand or power tools.
- Clean tools, work areas, and other objects.
- Drive service van to/from multiple work sites
- Traverse uneven terrain (including step ladders) on construction sites, while carrying tools, equipment, parts and supplies.
- Lifting (up to 150 lbs), squatting, kneeling, stair climbing, bending, twisting, turning, working with arms overhead
- Investigate damage, accidents, or delays at construction sites, to ensure that proper procedures are being carried out.
- Confer with supervisory personnel, owners, contractors, and Sales Designers to discuss and resolve matters, such as work procedures, complaints, or construction problems.
- Inspect or review projects to monitor compliance with building and safety codes, and other company standards.
